EDUCATION

ODA BULTUM UNIVERSIY

Bachelor of Science in
Computer Science
Oda Bultum University — July
2024.

- GPA: 3.57 / 4.00
- National Exit Exam: 65%
- 2021–2024

SKILLS

- Creativity Teamwork
- Quick learner Critical
- Thinking Adaptable to work cultures
- Quick learner
- Critical Thinking

LANGUAGE

- Amharic (native)
- English (basic)

Thank you
Ermiyas Eshetu

Ermiyas Eshetu

Full-Stack Developer

About Me

I am a Backend and AI Engineer specializing in enterprise ERP systems, scalable backend architectures, and production-ready AI applications. I excel at bridging the gap between enterprise reliability and modern AI capabilities, designing clean code to solve complex, real-world business problems.

Core Expertise:

- Enterprise Development: Designing and maintaining business-critical ERP modules including Inventory, HR, DMS, and CRM.
- AI & Automation: Building advanced AI products, including multi-agent RAG systems, custom LLM integrations, and intelligent CRM solutions.
- Tech Stack: Node.js, Java, Python, PostgreSQL, FastAPI, React Native, Angular, LangGraph, and Ollama.

GITHUB PORTFOLIO

2023 – Now

1. eTech Multi-Agent RAG & HageezAI

GitHub: <https://github.com/ermihageez/RAG.git>

AI Model: <https://ollama.com/ermihageez/HageezAI>

Built a fully local enterprise AI platform powered by a multi-agent architecture and a custom published AI model (HageezAI v1).

Tech Stack: Python, FastAPI, LangGraph, Ollama, FAISS, pgvector, PostgreSQL, Docker, n8n

Learned: Multi-agent AI, RAG, LLM orchestration, vector databases, scalable backend architecture.

2. AddisLead CRM (AI-Powered Lead)

GitHub: <https://github.com/ermihageez/AddisLeadBackend>

Developed an AI-powered CRM mobile application for Ethiopian businesses to capture, organize, and manage leads from Telegram and social media

Tech Stack: React Native, Node.js, Express, PostgreSQL, Prisma, Gemini AI, Railway

Learned: Mobile app development, backend APIs, authentication, AI integration, cloud deployment.

I look forward to contributing to challenging projects, collaborating with talented teams, and driving innovation through technology.
